Acute and chronic heart failure represent a growing health care problem and a growing need for effective heart failure management strategies. The

Surviving at Home Model of Heart Failure Care (SACH) provides a comprehensive, patient-centered approach to heart failure management. SACH includes: (1) the routine use of patient empowerment to improve treatment and care (an essential aspect of patient-centered care); (2) an evidence-based care plan; (3) a home-based care plan that is not standardized or rigid 570a42141b
