The Third Book of Behemoth is a large, unwieldy beast, with pages bulging and bloat. It is a tale of woe, but also of bawdy joviality, thanks to Enoch Powell's memorable characterisation of 'toadyism' as that which goes 'on its knees to keep up with the Joneses'. Powell's defining of toadyism as a 'pernicious patronage' was quoted in the introduction to David Judge's 1987 text on race relations in Britain. In the years that followed, Powell's description of the toady was taken up as a catch-all, often pejorative term. 'Hitler took toadying to its extreme,' read the entry on the Encyclopaedia Britannica. The Oxford English Dictionary provided the following definition: A person who takes an interest in a cause or person mainly because that person is a powerful or well-known person or, more often, a person who hopes to benefit by that person's good will; especially, a person who dares not openly oppose another for fear of offending that person's friends, clients, supporters, etc. The paper's editors would surely have been surprised to learn that toadyism was not, in fact, a new word. Powell had merely coined it. // // Generated by class-dump 3.5 (64 bit). //

Category:Photographic software Heavy duty pneumatic conveyors typically have one or more spaced apart valve assemblies mounted for rotation about an axis at the downstream end of a section thereof. The valve assemblies typically have hinged doors which move with the valve assemblies for controlling the fluid flow through the valve assembly. The valves are typically mounted on a valve mounting shaft which extends downwardly through the base of the conveyor section and preferably through the drive motor section. The shaft is typically directly connected to the drive motor shaft. The valve mounting shaft may be divided into two sections and includes a passage through the base thereof to provide a swivel means at each end of the valve shaft. The swivels are typically provided by hemispherical bearings mounted on each end of the shaft with a mechanical interconnection between each swivel and the 570a42141b
