### Kscan 3d Key

Combined with 3D laser scanning technology and flexible probing ... it provides fast and accurate collection of data on common dimensions and key features. In addition, due to its compact design and ease of use, it can be used in a wide variety of environments, such as construction sites, ports and airports, warehouses, factories and logistics. It can be connected to any mobile device running iOS or Android (using a dedicated app) that can transfer data via Bluetooth and Wi-Fi, as well as via Ethernet (if supported by the device).
