Q: sql convert two date field to one date I want to convert two dates to one date column. For example: A is given date column B is given date field if A is 1-1-2013 and B is 5-2-2013 then the output is 1-1-2013 5-2-2013. if A is 1-1-2013 and B is 5-2-2013 then the output is 1-1-2013 5-2-2013 if A is 1-1-2013 and B is 5-2-2013 then the output is 1-1-2013 5-2-2013 if A is 1-1-2013 and B is 5-2-2013 then the output is 1-1-2013 5-2-2013 I tried: SELECT To_Date('01/01/2013', 'DD/MM/YYYY') - To_Date('03/02/2013','DD/MM/YYYY') FROM dual But it's not working A: The only way I can think of is by doing the calculation in a function. If the input is always the second input, you could do something like: CREATE FUNCTION add_years(val1 DATE, val2 DATE) RETURN DATE AS

The Mayan Long Count Calendar Calculator calculates automatically or by user's choice, the remaining time until the Mayan calendar ends. To enter a date you may simply type it in or use the handy arrows to increase or decrease the date. The program does not check for invalid dates such as February 31st. The program also stores the calculated Long Count date in an.ini file for easy access. Tags:

Mayan,calendar,calculator,calculate,longcount,calendar,Mayan,Yucatan,American,Spanish,Latin,Mayan Day Cycles,Long Count Calendar Change History: 4.7 July 29, 2007 - added.ini file support. This means you can now use more than one calculator to enter a date with one keyboard, and have the date automatically stored in the.ini file. 4.6 June 12, 2007 - Added a handy icon to make it more intuitive. Also added option to automatically calculate the next day. 4.5 March 23, 2007 - Fixed a minor bug. The program will no longer exit if you use the wrong units when entering a number. 4.4 February 14, 2007 - Many improvements for user convenience. Now the program runs faster, and has a more usable, graphical interface. 4.3 November 4, 2006 - Added more "real" examples to illustrate the program. 4.2 September 12, 2006 - This version adds support for the Long Count Calendar and changes the usage of certain functions. The program will now run faster, and the help file has been changed a bit. 4.1 August 30, 2006 - The program now automatically calculates the Long Count for you. 4.0 June 21, 2006 - The program is now much faster and has more functions.

Wycherley's wrybill The Wycherley's wrybill (*Diploglossus mcnamell*) is a species of bird in the bulbul family, Pycnonotidae. It is found in Brunei, Indonesia, Malaysia, and Thailand. Its natural habitats are subtropical or tropical dry forests and subtropical or tropical moist lowland forests. Thanks! You can also leave me a comment using the big button on the bottom of this page.

[Morphometric study of the innervation of the rat parathyroid gland]. The presence of adrenergic and cholinergic nerve fibres was studied in the parathyroid gland of the rat by morphometric methods. The gland was studied from the first to the third day following induction of hypercalcemia. The rats were immobilized by ether anesthesia and sodium pentobarbital. Adrenergic nerve fibres were determined by the methods of fluorescence-immunocytochemistry using antisera to b-FNac. Cholinergic nerves were detected by the cholinesterase method. The results show the presence of nerve fibres and small ganglia of both types in the parathyroid gland and their increase during the first day of hypercalcemia. The functional role of cholinergic and adrenergic nerve endings in the gland is discussed.

The giant child model here is the result of love and careful attention to detail by the very talented clothing designer and model Britta Cooper and photographer Tim Hidalgo. I asked Britta what inspired this piece: "I wanted to create an image of a young girl, who was a child, but was young for her age. She had this playful look on her face, but had this warm glow about her. I wanted this to be a reflection of a child, but not in a childish way, and I wanted to reflect the innocence of childhood." "She is very sturdy and confident and very aware of herself and her surroundings. She is also very sincere. I hope you enjoy her." If you're on a quest to learn more about the images on this blog and why we made them, this post is for you. Let's start at the beginning. The life of a creative is not a smooth one. We aren't all created equal; some are blessed with superior vision and talent, others are more highly skilled and clever. Others still are lucky to learn from the more experienced ones. For the majority of us, luck is a big factor. But let's not dwell on the past

System Requirements:

Windows XP, Vista or 7 (Win7 recommended), 32-bit or 64-bit editions NVIDIA(R) GeForce(R) FX or NVIDIA(R) GeForce(R) GT(R) graphics card with a core processor of at least 200 MHz and supported with the latest drivers (Current drivers recommended, others not recommended) 1024 MB RAM (1 GB or more recommended) At least 80 GB available hard disk space (1 GB recommended) OpenGL 2.0 compatible video card (Minimum supported 3
