[ad#Google AdSense 450]American National Parks are the best of both worlds: a home away from home and a home within a home. We love parks, nature and nature's beauty. This app lets you enjoy the best American parks and other areas of nature on your screen, while you work or do other things! Swipe through the main display areas: Forests, the Lakes, the Mountains. The slideshow is fast, fluid and accurate. You can make individual slideshow settings for different pages and themes, including custom sizes, opacity, etc. If you want to make your own slideshow, scroll down to slideshow settings. Easy to use interface and flexible settings – this screensaver is for everyone! Download and enjoy! Jewel of the World Park – a masterwork of nature on the banks of the river Tae Soju, the well-known Korean alcoholic beverage, is housed in the unusual Boontaek water park, an arcade-style place located within the Boontaek Country Park, about 14.2 km from Naju. Boontaek was a construction site until 1985, and then it was chosen by the Central Water Resources Improvement Institute to construct a riverfront park. The central hydro electric power plant was also built here, and it is still in use. The hydro electric power plant and Boontaek's two channels and fountains represent an important landmark of the city. The water park's highest water fall is an indoor water area suitable for all ages. The park's sport saloons include bungee jumping, snowboarding and ice-skating. What is the tourist attraction at Boontaek? It is a place with a vivid culture, and you can experience the culture through the live shows, traditional cultural events, and various diversified cultural programs. During the operating hours of the park, a pair of musicians perform folk music on the stage, and other performers in traditional Korean dress sing and play musical instruments. The Boontaek National Park located on the

National Parks Free Screensaver is a software application that promises to bring some of that majestic beauty to your monitor. A screensaver for all nature lovers The screensaver is nothing more than a slideshow of images taken from both Yellowstone and Yosemite national parks, more exactly their main attractions. Those who've seen the park with their own eyes and even those who haven't and want to will enjoy the beauty and professionalism with which the photos were taken. If you love forests, lakes, mountains that have an almost mystical feel to them, then you will truly appreciate the beauty of this software application. An app that is customizable Despite the simplistic nature of the screensaver, there are several features that can be customized to fit your tastes. For example, you can adjust the image keep and transition time, the digital clock can be switched between 12h and 24h formats, and you can even choose to display an FPS counter. For better compatibility with your desktop, you can sync the app to use the desktop's settings, so there is no mismatch. An app that is starting to shows its age While the way the pictures are taken is breathtaking, their quality is a bit lacking by today's standards. During our testing on a 1920x1080 monitor, the app showed severe signs of pixelation in most pictures, and an abnormal stretch of the image. This is because the app was created when there were no, or at least few wide-screen monitors. This drawback does not make the app obsolete on modern systems; it just makes it better to be used by those of you still using older gear. An overall beautiful screensaver app National Parks Free Screensaver manages to impress us with a gallery of wonderful pictures, and despite the fact that it isn't recommended for modern monitors, it is a great addition for any nostalgic running average-to-low hardware. This screensaver reminds me of the feeling I had when I was a kid when I first visited the Golden Gate bridge. The beauty of this screensaver is that it can be used as it is, to change the pics and backgrounds, or even install the game of your choice. It is a free screensaver and worth your time to try. As far as the free screensavers are concerned, this is one of the best. I think that it is made with a good idea in mind, and a good delivery. I am actually really impressed by its usability and how simple it is to install and use. I
