In my main class, the fragment that contains the list I have an arrayList filled with a number of references to my data items, lets say userIds. So to the problem: Inside my fragment, I have a onCheckedChangedListener to handle the checked state for each checkbox. Now I would like to pass the id of the record being checked to my main list, which would enable my userIds list to update when a checkbox is checked/unchecked. How should I do this? What would be the best approach? EDIT: My fragment: public class FragmentQuickSearchResults extends Fragment implements View.OnClickListener { ListView listView; ArrayList quickSearchList; List results; TextView tvUserId; CheckBox checkbox; DatabaseHelper db; @Nullable @Override
