Q: how to declare uname string in c Possible Duplicate: how to declare strings in C? This is a program where it has to define the user name of my user, I need help to define it correctly, thanks in advance. #include #include int main() { char user[15], pass[15]; struct passwd *pw_ent; pw_ent = getpwnam("me"); int q; while (scanf("%s",user) > 0 && scanf("%s",pass) > 0) { if (strcmp(user, pw_ent->pw_name) == 0 || strcmp(pass, pw_ent->pw_passwd) == 0) { q = 1; printf("yes"); break; } else { q = 0; printf("no"); break; } } return 0; } A: You need to define user and pass as arrays of chars, and to use strcmp. Here's a simpler version of your code: #570a42141b
