As you can see in the screenshot I want to get the serial number from the console, the only way to get it is to puy a dvd like image (is that a valid way? ), so this is what I did: 1) Install the game on Windows 2) Shutdown the computer 3) Copy the installation file from the DVD using ImgBurn 4) Copy the installation file of the folder from the DVD (C:Users) 5) Open a Command Prompt and type 6) `slmgr /ato`. I'm playing on a xbox 360 and whenever I try to open a friend's game, it asks for the serial number. It can be any saved game, and it doesn't have to be online. Saving games - 2. The game isn't showing up on my system; how do I find out the serial number on my system? I have an XBox 360 that is stuck in a boot loop. When I turn on the console, it goes to the splash screen and then loops back to the splash screen. When I press B to change the background image, the splash screen shows that I have two different backgrounds. The first one shows a red baseball bat and the second one has four baseballs facing in a square. When I change to the first background, the baseball bat image shows up on the console screen and
