Rounding out the show is a look at the new podcast from Corgi of the Week, and a belated review of the Jorge Luis Borges story "The Library of Babel." Fangio for Kids: Scott McIvor is the writer for Bleeding Cool and he just moved from New York to San Francisco, so this week, he explains why he's chosen to take on the Steve Ditko-created character of Fangio the Cop in a comic book series for Corgi. We talk all the ins and outs of adapting a retro-era character like this to a modern era. Corgi Podcast of the Week: This week, the boys look back on the first episode of the eponymous podcast, and talk about what works and what doesn't. But before they get to the bad puns and the "stupid pedestrian jokes" (that's Roly's term, not mine), we delve into the world of vocal accompaniment with Daniel's vocal performance of a couple of the tracks from their second album, The Breakdown. Borges Podcast of the Week: This week, Jorge Luis Borges is on the short list for one of our favorite writers of all time, and I'm delighted to say that this is the best way to get into his work. Jorge Luis Borges thought a lot about things like the pursuit of knowledge, and how each individual person gets to decide what's interesting to them. But he was also a hell of a storyteller, and in this story from the Library of Babel, he takes us on a trip that has been 20 years in the making. The Library of Babel by Borges is one of those stories that's easily adaptable to whatever medium you're working in. But

They are never safe, as not even the OS will guarantee that they won't be broken at runtime. If you need to ship binary files to your users, take the following steps: Create an app to run on a dedicated server. Have a web server from which your users can download their files. This server is safe and will maintain constant backups. Create a file with your source code, run it through an IDE, and build your app to the dedicated server app. Your users will be able to download the.apk or.ipa file from the web server. This is what most app developers do. You may also want to read this article. Siege of Lille (1293) The Siege of Lille took place in 1293, during the first phase of the Hundred Years War. The English, then the allies of France, besieged the town of Lille in northern France, a fortress they had captured in 1214. Treaty of Péronne The year 1293 was a bad one for the French. War had broken out in July 1290, when King Philip IV of France defeated the Count of Flanders and repulsed an English invasion of northern France. f30f4ceada
