What's New In?

Make it easier to design and analyze the elements of a design. Add color-based highlights to any element to mark its importance and visualize its construction. (video: 2:44 min.) Live view and real-time navigation support: Add and edit text labels and annotations to your drawings. Live view lets you quickly zoom into the drawing, drag and drop text, and see what you're drawing before you start. (video: 1:25 min.) With real-time navigation, you can change your view while you draw, keep your attention focused on design details, and take a break with contextual cues to let your mind wander. (video: 2:02 min.) Multi-document and annotation sharing: Navigate your drawings with multiple designers or users at once. AutoCAD allows you to share your annotations and design elements with other users and lets you keep them organized in a shared annotator. (video: 3:05 min.) Quickly see what's changed and how you got there. Watch the latest versions of your drawings while navigating back in time. (video: 1:41 min.) The new features will be available for Windows, Mac, Linux, iOS, and Android. UPDATED: Markup Assist 9, Live View, and Real-Time Navigation are now available in AutoCAD for iOS. In addition to introducing these features, you can now share Live views and annotations, and create custom views for your designs. (video: 4:18 min.)
