(120)Note 13: Ironhide LADDER  
(Community)**

**The Ironhide Ladder is a usable system which allows flying over major cities and hexes in the northeast, and over the hexes of the Elden Ring in the west. Each city has its own classifications of information. For instance, some cities (sometimes seasonal cities) allow you to access a daily information on combat, or some cities give you information on your Vault. If you are a player who has completed the tutorial at least once, you are automatically assigned one city when you log in, and you will be able to automatically explore and access information regarding your city.**

**Both the ladders and the guidebooks are written in a strange language. So if you do not know this language, you will need to make some research before beginning a ladder voyage. The guidebook contains descriptions of all the important sites for surviving in the Nordheleve. The ladders have also a description and a difficulty rating.**

**All the information about the Ladder can be found in the guidebook and guidebook2 in the Article Index, and the English guidebook1 in the Articles section. Click on the "Images" link on the top left to see an overview of the entire collection and**
