The ELDEN RING is a brand-new fantasy action RPG developed by a studio called Illusion. The developer is a talent developer that was reborn in the game industry thanks to the Witcher, and known for developing the action game series of Hakuoki. The game focuses on a fantasy story that revolves around the life of the protagonist, Almec, who wants to become a great hero and later on, an Elden Lord. Almec is a young man who has a personal grudge with the antagonist, an evil Gorga, a vampire who has made a dark pact with the Devil. This is the start of Almec's story in an adventure that will continue for a long time. The world of The ELDEN RING is made up of very large fields, towns, mountain areas, and dense forests. The world seems to be made of three layers, with the deepest layer being the terrain. There is a main road that has both large and small towns and mountains on the surface. There is also a path to a large dungeon deep inside the mountains that is separate from the main road. It is a huge world and a large number of stories can take place in it. The game uses a free and open flight style. You can freely move from large fields to dungeons and back, freely roam around the entire world, and freely change the paths you take. Also, you can freely move around as much as you want. The world is entirely open, and moving is free. You can freely land at any place you like. You can freely get back on the sky if you land in a place you don't want to be. There is no way you will lose your way in the world. You can bff6bb2d33

It is said that long ago, the sacred order of the Elden Ring, a group of research university professors who forged an alliance with the kingdom of Elden, drove aside the tyranny of the evil Kingdom of Aur and constructed the advanced Crystal Tower as a sanctuary to research enigmatic phenomena. However, after several centuries, the promise of possessing a dream of peace slowly faded. Before the day of the planned attack by the Kingdom of Aur, a tragic accident caused a discovery by the kingdom of Elden about a secret within the Crystal Tower. The Elden Ring was cast to the ground by the nobility as the research was immediately terminated, but certain members survived, and the secret was kept secret. After the death of the King, the heir takes over the throne of Elden with the promise of ending the war between the kingdom of Elden and the kingdom of Aur once and for all. At this time, the

kingdom of Aur and the Kingdom of Elden are engaged in an all-out battle to the death in the Lands Between. The Kingdom of Elden possesses an ancient magic called “crystal power,” which gives off an ethereal light, and the main weapon of the Kingdom of Elden is the Crystal Tower, the strongest magic crystal in the universe. The Crystal Tower has also created a level of imbalance between the land of the Elden Ring and the other lands. After this, the Kingdom of Elden declares war on the Kingdom of Aur as a preemptive strike against their central objective.
