“Manuel Neuer’s goal celebration in the World Cup final has already got fans buzzing, but now you can see the full story of the epic three goal-saving ‘Save of the Season’ from UEFA EURO 2016 in interactive form,” said Mark Darrah, Producer at EA SPORTS. “We’ve also included new on-pitch elements, such as the Dynamic Goalkeeper Control and Dynamic Player Zone, which bring new depth to competitive experience. A complete overhaul of the Matchday system offers refinements to player roles, star matches and more.” • FIFA Soccer Performance Index With the new FUT’s Matchday system, the Performance Index now rewards players for their skills and traits - rather than just their performance on the pitch. A new Talent tree system unlocks new positions on the Pitch, such as goalkeeper, defender, and midfielder player, resulting in the creation of more flexible roles for your squad. FUT’s Matchday system also comes with a host of new features, such as the ability to block shots in-game, perform aerials, and defend off-ball, while new stadium elements have been added to bring the experience to life, from new set pieces, the corner flag and goal posts to the distinct atmosphere of new stadiums. A newly-added Precision Dribbling ability, which acts as a passing option for free kicks, set-pieces and corners, helps you control the ball with high-precision, and new Shot Targeting assists the “master of all dribblers.” Respawning of players has been added to in FUT, along with new Targeting Assist, and Pass Interception Assist options. Also, finishing skill requirements for headers, shots and passes have been re-balanced, with better accuracy now being required for the best players. New Attacking Play Control gives you more situational control, allowing you to customise when you use long passes, while the Power Kick gives you greater control over the ball at the end of the attack, with the option of: using a regular pass, or free kick, or trying to chip the goalkeeper. The Persistent Player Zones were first introduced in FIFA 19, and now activate when players are in the Dynamic Player Zones. They are designed to create a more realistic football experience, and better showcase the skills of players that excel in their own zones. Team Tactics and Targeting Assist system have been

FIFA (from FIFA stands for “Fédération Internationale de Football Association”) is the most popular sports game franchise in the world. Based on in-depth analysis of more than 200 million plays, FIFA is the world’s leading football simulation. FIFA is the most successful sports video game franchise of all time. As of the latest retail release, FIFA 18 (FIFA 19 in Europe), released on the PlayStation®4, Xbox One and Windows, the FIFA series has generated over \$500 million in retail sales. More than 550 million players worldwide have connected with the FIFA franchise and nearly a billion hours of gameplay have been generated since the FIFA series launched in September 1994. What is the FIFA series? For more than 20 years, the FIFA series has been the world leader in delivering immersive football (soccer) games. Combining revolutionary football physics, next-generation graphical power and unparalleled online experience, the FIFA series continues to push the genre forward. FIFA takes you into the game and makes you feel like part of the action by animating more than 350 million living, breathing players. Most recently, FIFA 19, released on the PlayStation®4, Xbox One and Windows, brought a host of innovations to the gameplay that were possible with the new game engine. The FIFA series now delivers increasingly sophisticated gameplay features that are integrated into the game and interwoven across the experience. For FIFA 2018, long-time fans can also expect to enjoy a new story, animated cutscenes, player celebrations, squad and manager voice-overs and improved player models. FIFA 20’s new game engine enabled the series to unlock an unprecedented level of diversity in presentation and gameplay that fully represents real football. Fans can now experience the game with real-time goal celebrations, dynamic new pre-match presentation moments, new manager and squad presentations, and numerous new ways to earn fan rewards by tuning in to live and on-demand content, as well as take part in the official FIFA Ultimate Team tournaments and community challenges. FIFA’s game engine ensures that the player feels as if he or she is right at the center of the action. The game engine of FIFA 18 powered a brand new level of realism, allowing players to feel the power and speed of every kick and tackle, the strength of every pass and swerve, the tactics and movement of their opponents, and the pace of the game. This is the engine that drives every moment of gameplay in FIFA.
