

Players will experience and control on-the-ball actions with unprecedented touch. In addition, key features have been tuned and tuned for the speed of the real-life football action. With a higher speed and more fluid engine, FIFA 22 brings you closer to real-life football action than ever before. “We’re delighted to be able to capture and implement the real-life world of 22 players onto FIFA gameplay,” said Piers Morgan, Creative Director. “We’ve made a game that will expand our player universe and allow our fans to experience new gameplay possibilities.” FIFA 22 is an open-world, online gameplay experience with a brand new, action-packed FIFA World Cup experience. However, the core gameplay, stadiums, players and on-the-ball passing and shooting mechanics are identical to FIFA 21. Also of note is that the game will feature cross-platform play between the Xbox One, Xbox One X, PS4, PS4 Pro and PC via Steam. The Zones One of the exciting features of FIFA 22’s gameplay will be the new Zones feature that players will be able to create to control the match as they see fit. Before the start of the game, players can select from two shapes in the Ultimate Team mode and play in a free-for-all way. The match is then divided into 18 sectors, based on the player shapes. Each zone is designed to be a battle zone on the pitch. “Over the last few years, we’ve introduced new gameplay elements to FIFA World Cup,” said Morgan. “Each of these gameplay features has shifted and changed the game – and now, with Zones, that’s set to continue. We now have the ability for the player to control how the match is played.” FIFA 21 featured the FanSided Soccer feature, which was created in conjunction with the soccer website, Fansided.com. Similar to the FanSided Soccer feature, Zones will be designed in close cooperation with a select group of community-based influencers and their fans, allowing for feedback to be taken into consideration. “There’s no gameplay feature in FIFA that has moved players in such an emotional way,” said Morgan. “The gameplay of FIFA World Cup used to be about hitting a penalty spot, but then it evolved with the
