Adrian Healey, Head of FIFA and EA SPORTS commented: "This year's FIFA Football title will feature an all new engine and enhanced gameplay. We have been working for over a year on the new engine and already you can feel the difference. In addition to the player details and performance, we have made a number of improvements to the ball physics, ball behaviour and intelligence, ball joining and goal mouth collision. The breadth of improvements we have made to the ball physics is the most visible aspect of the change but there are many other gameplay tweaks and small enhancements to the user experience. The result is that we have created a more immersive and realistic experience with an enhanced gameplay that is both reactive and intuitive. We are also adding all the extra detail required to deliver the level of accuracy that our millions of fans expect from FIFA." ABOUT EA SPORTS FIFA EA SPORTS is the world leader in sports video games. The FIFA series has shipped over 100 million units and won over 500 Game of the Year awards, while the Madden NFL series has sold over 90 million copies. EA SPORTS will release a new FIFA title in North America on November 15, 2015. In addition to the massive single player career mode, FIFA offers online play and online seasons to create and play custom competitions on the pitch. The online leagues, fully integrated with the game's main story mode, offer a structured way to play with friends on the FIFA scene, build and plan tournaments and compete against players around the world. ### **Fifa 22 Features Key:**

- FIFA 22 introduces "HyperMotion Technology", which uses motion capture data collected from real-life players playing a complete, high-intensity football match in motion capture suits. HyperMotion Data powers a wealth of new artificial intelligence (AI) behaviours.
- UEFA Champions League returns for the first time in 17 years.
- New "Auténtico" Tour Guide (using ideas from the fan-based Google Street View project, Street View cars, voice recordings and user feedback) increases the game's sense of place, helping you explore the streets and cities of the world.
- Roster Updates – Real-time player movement (machine learning), AI, and player traits have all been updated to give players greater chemistry, visually and tactically.
- Player Sprint Quick Reactions add a new layer of transparency to quick short-pass gameplay, when used by users.
- Improved AI-led Tactical Teamwork – Breaks down the main types of scoring chances, including counters and buildup.
- New goalie models and analysis
- New way to view players: Players have split-body replicas: seven-part humans, and eleven-part machines.
- Dribble Control – Now you can throw or pass the ball with specific foot/left/right/no touches.
- FIFA Ultimate Team
- Robust Performance Determination – Seven-second sprints, paces, sprints, acceleration/deceleration, ability to assess player fitness through analysis and replication of difficult player types (long passes, dribbling, shooting) without the involvement of a coach.
- Revamped Atmosphere Commentary – Fully updated over-the-top calling, accented on-field voices.
- New Commentary VO director: a new camera work style using new camera angles and a unique viewpoint.
- New background commentary – New on-field commentary system; the same commentary team do on-field calls, with a few edits to enhance game atmosphere and help analysis.
- New Commentary Language Engine – 115 new game language combinations, covering over 40 languages
