The journey that awaits you as an apprentice of Rinqua in the game "Dread Ring" is a rich experience.

Enchanting character design - The characters in DARK SOULS, made with the same hands as in the game's breathtaking character art, are developed from scratch with exquisite care. It's the same characters as found in the "Dread Ring" prologue. The production process remained completely different from the development of the game.

A game that poses questions to the player - Dark Souls features a complex story with twists and turns, which the player is invited to explore. We created a game that depends on the player's choice when it comes to playing. You'll enjoy this game more by allowing the story to unfold, depending on your own actions - rather than on the quests and events displayed on the game map.

Victory over powerful enemies - Strong enemies are a threat not only because they are noisy, but in addition to their fire and harmful attacks, they possess special abilities that prevent you from attacking. Exploitation of these enemies offers a sense of richness in the game's atmosphere.
