A new and innovative experience in puzzles, TETRAlogical offers an action packed puzzle game that focuses on the construction of logic gates and tetrominoes, with the goal of creating the most complete and symmetrical shape. A satisfying experience for puzzle enthusiasts looking for a new and fun experience. In the game, you have to use the available tools to construct shapes and shapes of varying sizes, always based on the rules of logic. You have to use your logic skills and your intuition to design the most symmetrical and most complex shapes possible. It's up to you to decide the width of the gates and

where to place them in order to create the most efficient chains. Every game has its own play mode. You can play either in the Campaign mode, which consists in building shapes all the way from the introduction to the TETRAlogical. In this mode, you have to build all the minimum, plus the maximum number of gates required to complete the shape, if you want to achieve the most complex shape possible. You can also try the Puzzle mode, in which you have to build the maximum number of gates required to create a given shape. The level editor has the option to build shapes with gates and shapes without gates. The latter shapes can be created in order to create interesting formations. The pack of sound effects available in the game has a selection of different type of environmental sounds suitable to create a variety of environments. You can also use the soundtrack of the level editor to play your own tracks in the level editor. TetraLogical is a strategic puzzle game

with an addictive gameplay and visual appeal. What is TETRAlogical about? TETRAlogical is a logic game where you construct shapes with various shapes including tetrominoes using available tools. You will use your logic skills and your intuition to build the most symmetrical and complex chain. Each chain is scored on a specific criteria and you have to choose the best chain to achieve the highest score. TETRAlogical has three main modes: TetraLogical, Logic and Logic Rush. TetraLogical is a single player, action game where you have to build chain as fast as possible. You have the option to play in the game modes: Campaign, Puzzle and TetraLogical. At the Campaign Mode you have to build the chain from start to finish. At the Puzzle Mode you have to build the chain as
