Welcome to the final level of a puzzle game designed by me, the developer. In 4...3...2...1... Why is the final level inside a cube? Because it has to end. I've created a puzzle based on the cube shape. The goal is to move the cube around with a minimal number of actions. You have to watch out for the different types of cube, also known as power cubes. Not all cubes are the same. Different cubes move in different ways. The challenge is to combine powers and switch between them to solve each puzzle. If you made it to the final level, be sure to try the cube tutorial. It's the best way to get familiar with the game. Your help would be very much appreciated and I hope you'll enjoy it as much as I did. Thank you for playing :) If you found a bug or have a suggestion, please feel free to report it. It's very important to me. :) If you have not heard of me before, then here is a link to a video I made before the game is finished: [IMPORTANT UPDATE: I have started working on a second game called qop 4.01 "I like to play with my cube". This second game will be more difficult than the first game, because there will be more cubes and different puzzles with more complex rules. Thank you all for your interest and your support! -Alistair x](#) More information: [\[Alistair \(creator\)\]](#)[\[Alistair \(creator\)\]](#)[\[Facebook\]](#)[\[Twitter\]](#)[\[Steam\]](#)TTTTTTTTTTTTTTTTTT TIN\_GROUP=00000 IN\_GROUP=1 INDIS\_INDEX=1 IN\_INDEX=0 PWR\_INDEX=1 IF\_UP\_INDEX=0 IF\_UP\_PWR\_INDEX=0 IF\_DOWN\_PWR\_INDEX=0 PWR\_INDEX\_MONITORED\_PWR\_IDX=1 BLK\_PWR\_IDX=0 This should be helpful in some way. Maybe people will be inspired to use that understanding in ways that they may not have thought about. Well, I

daunting, Badiya includes a variety of tutorial methods that teach you as you go. Meet and Conquer Key Characters On your epic journey, you will meet with a wide variety of characters and must choose which to befriend, then decide how to influence your relationship with them. Along the way, each character offers help and insight into this mysterious place, sharing many secrets and a variety of helpful items and weapons. Perform Activities and Quests In Badiya you must choose your own path, as you encounter situations that you must either solve or leave alone. You won't find a set path through the game, and because it is procedurally generated, your choices truly can make you a hero or another victim. Survive Against the Desert's Heat and Wild Animals The sun scorches the earth in Badiya, leaving behind a realm full of deadly dangers that threaten the curious explorer. Animals such as scorpions, snakes, and harmful plants thrive in the heat of the desert, and even the most adaptive adventurer can succumb to dehydration and injury. Fittingly for an Arabian adventure, the environment isn't always as easy to traverse. Your journey through Badiya may include a swamp, slippery slopes, flooded areas, and even cave systems, as the world constantly changes and presents its challenges. Realistic Weapons Each character in Badiya features a weapon that you can use to attack, defend yourself, or to perform special actions. Weapons have a cool down period, so it's important to play them wisely and judiciously. Many weapons can also be enhanced, with cool new properties and abilities, including an entirely new attack that takes advantage of a unique rope swing. Immersive Gameplay Badiya has a simple yet challenging core game loop where players are constantly aware of their surroundings. This includes having to monitor for enemies, kill or be killed, keep watch of their equipment, and prevent death by c9d1549cdd
