ProTree is an interactive desktop application that displays a beautiful and nicely decorated fir-tree that is accompanied by a cute Collie dog. The app resides on your computer screen and allows you to place it wherever you see fit. The size it takes up on your computer screen shouldn't worry you as the application can be resized. You can shrink it to the size of an icon or enlarge it to almost your entire screen height. This way, you can fit it to any theme you have installed on your Windows operating system. There's no

interface to speak of but the graphic elements that make up the app are worth mentioning. They come in a lot of shapes and sizes, fixed or animated. You get pulsing lights and flickering reflections along with a cute Collie that seldomly blinks and waves his tail. You can't say that ProTree is an interactive desktop toy as it does nothing when you click the tree. On the other hand, clicking the dog makes him turn around and give you a nice little friendly bark and from time to time turns into a rather large present. Apart from the size of the tree, you can also adjust the app's transparency along with the volume of the

special effects. Moreover, you can choose from different modes in which the tree is animated. You can select to only have the tree flash the lights or turn some of them off. If you want to keep ProTree fixed in one place, you can do so by disabling its 'draggable' feature and placing it on top of other applications. In closing, ProTree is a well designed and fun application that can certainly bring with its use a little bit of Christmas spirit. Downloads: 1,660 - Shareware - Download Now

ProTree is a desktop application that displays a beautiful and nicely decorated fir-tree that is accompanied by a cute Collie dog. This app takes not easy time to create a surprisingly nice looking and funny app. The ProTree for Windows generates a pretty tree, but the real fun comes from the lively and interactive dog. The app creates a nice Christmas tree, which every time you open it pops up with a cute Collie dog. The Collie is the default app for Windows that helps you start something but that also can shake and gloat. Brief Description of ProTree: ProTree is a desktop application that displays a

beautiful and nicely decorated fir-tree that is accompanied by a cute Collie dog. It instantly creates a nice Christmas tree, but the real fun comes from the lively and interactive dog. The Collie is the default app for Windows that helps you start something but that also can shake and gloat. When the application comes to play with the programmer is inspired by the Collie dog's original use. The tree is not possible to move (click a button) of the desktop. It stays in one place on the screen and shows a nice Christmas tree with many uses: - No standard desktop functions, no menu, no "treeview". - Impossible to change the length of the tree. -

You can hide the tree or expand it.
- The tree will come to life during
your favorite song. - Custom
speed. - A "second" mode to save
changes of the tree. - Animated
lights, each light changes. - Of
course all the above for our
beloved Collie.// // Generated by
