25.03.2020, 00:56 mount and blade warband custom battle mods
Download With Full Crack Ysthosmer 16.03.2020, 05:00 Technically, we have yet to see a "real" Mount&Blade battle - and in that respect it has to be rated an 87%. There is no victory or defeat, as there is no set goal, no clear objective, no clear enemy to slay, no resources to slaughter over, no time to lose your men to ragdolls, and no enemy reinforcements coming in. The setting is as uninteresting as the get-up on everyone, and the story is boring and unwatchable. The only battle we have seen so far is a really cheesy movie with cutscenes that should have been animated. Of course, we can replay those cutscenes each time we want to, and that's fine, but there is no need to make them happen. Just a one-time battle with just a few important cutscenes and some lame dialogues between stupid characters. And as we have not seen a single actual battle in Warband, the worst battle mechanics in the history of the series. Aiming down to the target was a very good idea, but the game should not force you to do that. There's a time to aim down, and then the time to make the trade-off between the aim-down time and the fallout of shooting the character where the bullet hits. There is no automatic aimdown time, but the game should still make that decision, and just let you decide what's the best trade-off. So, we have mereCutscenes with great music, but absolutely no battles. In Warband 2, we have cutscenes without any music, but really in-depth battles. There is no video link to Warband 2, and we won't have it until the beta is over, so we can't look forward to any screenshots in the meantime. Also, the game was shut down. Krutika 12.03.2020, 15:54 A mod to enable a battle mode where you have a bossfight and a combat (from the main battles of the game) and a cutscene during the battle. And then another cutscene after the battle. mount and blade warband custom battle mods Cracked Accounts Krutika 12.03.2020, 15:55 A mod to enable a battle mode where
