of 2011ConsoleDeveloperSoftwareMods and Add-onsRelease DateWed, 17 Feb 2011 06:19:01 +00009809 at Tale of Tarnished New Features, New Awesomeness

Tale of Tarnished, the free to play fantasy Action RPG, was updated to version 1.1 this week with the continuation of the previously announced new features and numerous tweaks based on feedback from the community and Square Enix representatives.

We're proud to announce the addition of further options to customize your character. Players can now equip a bounty based on the level of their auction house or a mark based on the level of their stats. You can also choose to bind 3 strength, strenght, agility or constitution stats to your character's items and equip them alongside your weapons, armor and equipment. Now you'll be able to decide which stats your best items have.

Tower of Strength players can also now be called on to extend your sword and shield for stronger attacks.

More classes to master and much more are also on the way in a patch schedule of 2-3 new classes and balancing issues per patch.

Another change is the new Classes and Subclasses system. The new classes are actually quite broad and will allow players to match their characters' style.

Sorceress is the first class offered, focusing on enchanting your gear, and using your magick to stun enemies and affect the battlefield. Shadow Knight will be able to slow enemy movement, while Templar will have a protective healing aura around him. Witch is the high level hybrid class between magick and skill, and starts out using magick and later switching to the use of skills. The name Witch almost stems from spells, but the turn based multiplayer play just isn't possible and the skills are actually ranged in gameplay, so it is more of an 'event' class.

The update also brings an increase of various Game Items across the board, meaning more aesthetics, gameplay and power-

Write a review My review Review from Reviews Sick yet This game looks sick even if it's 1.2 and needs lots of fixings. I can't wait to play it. The game looks amazing and I'm glad that I found this game. It's epic, it's fun and it's the only reason why I bought this game. I've already played the game twice and it's probably going to be more than 3 times. The story is great but it's full of bugs. It's not a bug but the game is freezing half the time or it gets stuck and it doesn't let you enter the game unless you restart your phone.
