2018 Overview AutoCAD 2018 is the latest version of AutoCAD. It is available for both the Windows and Macintosh operating systems. Windows 10 The first version of AutoCAD for Windows 10, AutoCAD 2018, was released in October 2016. This release added new features, new applications, and improvements. It also brought several improvements to the Windows platform. AutoCAD 2018 runs on 64-bit Windows and comes with many new features including the ability to edit shapes in 3D, make scientific symbols, and to use 3D scanner technology. macOS

---

Mojave AutoCAD 2018 was released for macOS Mojave on September 30, 2017. It includes many new features including drawings and modeling applications, improved usability, and enhanced functionality. 3D Modeling 3D Modeling allows you to create objects in 3D. You can then use those objects to create 2D drawings that are based on those objects. You can also access all of the modeling features of AutoCAD 2018 using the new 3D Modeling window. The 3D Modeling window opens automatically when you open a drawing. To start a 3D model,

---

click the New button on the Home tab of the ribbon, or choose Tools > New > 3D Modeling. The 3D Modeling window opens with the 3D Modeling tab in the ribbon active.

The window also has a help button on the right side to access the help system and a context menu for commands. To close the 3D Modeling window, click the close button on the top left corner of the window. The 3D Modeling window can be split or resized to view only a particular part of the drawing. To do this, click the View button on the Home tab, then click the View

---

button on the ribbon. The View window opens. You can drag it around to see different parts of the drawing. The 3D Modeling window can display different types of 3D objects. To switch between them, click the 3D View button on the ribbon. To view all the objects in the drawing, click the 3D View button on the ribbon. To close the 3D Modeling window, click the close button on the top left corner of the window.

AutoLISP was provided for version 2.0 and Visual LISP for version 2.0 and above. VBA is for AutoCAD LT (since AutoCAD 2017) and AutoCAD R13. AutoCAD Express AutoCAD Express is a free software application and an AutoCAD alternative to the full version of AutoCAD. It was announced on June 27, 2012. AutoCAD Express is included in AutoCAD LT and comes preinstalled on all new Macs with an Intel chip. It is available for the PC, and will soon be available for other systems. In late 2013, AutoCAD Express was made available for

---

the Microsoft Windows operating system and was available as a stand-alone application or as part of AutoCAD LT. In July 2014, Autodesk announced that it would be replacing AutoCAD Express with AutoCAD's design tools for the Microsoft Windows operating system with a similar interface. This new tool would be called AutoCAD 360. AutoCAD 360 (formerly AutoCAD App) AutoCAD 360 was developed by the same team as AutoCAD Express and has a graphical user interface similar to that of AutoCAD. It was released on October 28, 2018. AutoCAD and other AutoCAD add-on products are available for download from the App Store. AutoCAD, which was previously available in two versions, AutoCAD LT and AutoCAD Pro, was updated on October 9, 2014 to the third generation of AutoCAD. A total of 3.6 million users upgraded to this new release. This new version was released along with a completely new software design called the "AutoCAD 360" product. For many users, the new design was more responsive and intuitive. Features like a new ribbon UI, new functions like a new line
